

Met on 4/23 for approx. 1 and 3/4 hours, met from 11 am to 12:45

Damien, Doug, Luke, Michael, Andrew in attendance (AI unable to attend due to commuting issues, knew of this in advance and group was fine with it).

Worked out issues with heroku, fixed server_scripts.txt for researcher_profiles table.

Developed local.js and figured out how other group members could test scripts in localhost rather than on heroku.

Finalized final task assignments:

Front-end team (Michael, AI, Doug):

- CSS changes and minor fixes
- Presentation slides

Luke

- Profile page and feed integration
- Presentation slides

Andrew

- Implementation of encryption scripts
- Presentation slides

Damien

- Implementation of encryption scripts
- Security Testing
- Presentation slides
